Harsh Ranjan

 harshranjan0522 | harshranjan | My Portfolio | harshranjan7117@gmail.com

SUMMARY

Computer Science and Engineering student at Chandigarh University with a strong interest in frontend designing and coding. Skilled in HTML, CSS, React, Figma, Canva, and experienced in Data Structures and Algorithms using C++ and database management with MySQL. Seeking industry experience to apply and enhance my skills through real-world projects.

WORK EXPERIENCE

Cloud and AI Intern -Edunet Foundation and IBM   July 2025 - Aug 2025

Completed an internship on Emerging Technologies – AI and Cloud with Edunet Foundation in collaboration with IBM, gaining hands-on experience in AI solutions, cloud computing, and real-world problem-solving.

Data Science Intern - Prodigy InfoTech   Feb 2025 - Mar 2025

Performed data cleaning and visualization, ensuring accurate insights through effective pre-processing and graphical representation

SKILLS

Programming Languages	C++, C, Java, SQL
Tools & Platforms	Figma, Canva, XAMPP Server
Web & Frontend	HTML, CSS, JavaScript, UI/UX Design
Problem Solving	Data Structures & Algorithms (C++)

EDUCATION

2023 – Present	BE (CSE) at **Chandigarh University**	(GPA: 7.5)
2021 – 2023	Intermediate at **Holy Cross School**	(Percentage: 83%)
2020 – 2021	Matriculation at **Holy Cross School**	(Percentage: 88%)

PROJECTS

Focus Companion - Enhances Your Productivity — Link   September, 2025

A browser extension that helps users stay productive by categorizing tabs as Focus or Distracting. Users can set threshold times for distracting tabs, which are automatically closed once exceeded, and enable a Focus Mode to minimize distractions for a set period, boosting overall productivity.

Employee Management Dashboard - Assign and Track Tasks Efficiently — Link   June, 2025

A React-based web app that enhances virtual interaction between admins and employees. Admins can assign and track tasks, while employees can accept and update task status as Completed or Failed, all with a responsive UI and local data storage for smooth performance.

DSA Wizard - Learning Made Easy — Link   Febuary, 2025

A beginner-friendly platform that consolidates all essential data structures and algorithms in one place. Features visual explanations, concise content, code snippets in four languages, and downloadable cheatsheets, all within a responsive and futuristic UI for easy learning on any device.

ACHIEVEMENTS & CERTIFICATIONS

HackerRank - Java (Basic), Pyhton (Basic), Problem Solving, SQL (Basic and Intermediate)
Deloitte - Tech Job Simulation
Cognitive Class - Prompt Engineering
